

# President Message December 2019

I hope all the rock club members have survived Thanksgiving and Black Friday weekend. The December rock club meeting will be back at the Legion Hall on December 19<sup>th</sup>, starting around 7 pm. If you are going to attend please bring some good holiday treats and a small gift to exchange, if you want to participate in the gift exchange. I have also included the November club meeting minutes for review. I'm still waiting on the October club meeting minutes. Maybe the club secretary will bring them to the meeting and we can get them approved along with November's minutes.

In last month's club minutes it was voted and approved to have 2 temps to help during the show. I plan on using these temps to help go through both club trailers to help remove unwanted or unneeded items. The removed items then could be transported to a temporary storage unit till a decision is made what to do with the items. Another item that needs to be approved is getting rid of the basalt IDAHO rock. Shirley called the person that donated it to the club and they stated that they didn't want it back. So I suggest that we auction the IDAHO rock off at the next annual show. Club members that show up to help set up the show will be involved in determining the usefulness of the items in the show trailers. Rock club members also need to try and come up with a redesigned show flyer for our 70<sup>th</sup> show this coming March. Members have two 12 days to come up with a show flyer. Please bring an example to the December club meeting.

I would also like to add that the club really needs to have some field trips next year. Please think about an area that the club could go collect some nice rock and have a good time. The field trip could be a one day event or a weekend camp out thing.

Just a reminder that the rock club annual dues for 2020 can be paid by the end of the year. Rates are the same as last year, \$5 for adult and \$1 for the first two kids, and the requirements for a free club membership.

If any club member want to talk to me about any aspect of the rock club, please let me know.
